Professional Summary

Harnessing 3+ years of Software and Networking expertise, I am a seasoned DevOps professional proficient in AWS, Terraform, GIT, CI/CD (Github, GitLab), and a plethora of tools including Nginx, Splunk, Jenkins, Ansible, Sonarqube, Rundeck, Docker, Docker-compose, Kubernetes, Grafana, InfluxDB, Postgres, MongoDB, Linux, Windows, and scripting in Bash and Python. My dynamic skill set and hands-on experience make me a standout choice for DevOps roles, bringing efficiency and innovation to every project.

Experience

AWS DevOp Engineer

Astics.io, Ahmedabad

March 2022 – Present

- Reduced deployment time by 90% through Ansible-Rundeck automation.
- Configured Nginx for application hosting, proxy, and load balancing.
- Developed Ansible playbooks for automating tasks on EC2 servers.
- Managed metrics collection across EC2 instances using Grafana & Telegraf.
- Configured Splunk for error log collection and alert setup.
- Utilized Docker and Docker Compose for efficient image creation and containerization.
- Familiar with Kubernetes and Docker-compose.
- Created PostgreSQL instances with Docker-compose.
- Set up HTTPD and Tomcat environments as per documentation.
- Established CI/CD processes as per project requirements.
- Implemented SonarQube on EC2 instances.
- Proficient in shell scripting and Python for automation tasks.
- Managed domain hosting through GoDaddy and Route 53.
- Automate AWS infrastructure with Terraform and CloudFormation.
- Extensive knowledge of AWS services including EC2, S3, CloudFront, Rds, Lambda, CloudWatch, Ses, Sns, Auto-scaling, Iam, Ecs, Alb, and more.

IT Support Engineer

MG Construction, Mumbai

August 2017 - October 2021

- Provided technical support and administration for infrastructure.

Projects

1. Airtel
2. Aavgo
3. Terotam
4. Banas Dairy
5. BMCRI

I streamlined the All-prod deployment process using Terraform and Ansible, implemented monitoring with Grafana and Prometheus, and optimized AWS resources. Additionally, I established automated backups, CI/CD pipelines, and identified cost-saving opportunities to enhance system performance and reliability.

Education

Bachelor of Arts (B.A.) in Economics

Rizvi College of Arts, Science and Commerce, Mumbai

April 2014 - March 2017

Skills

Expert: AWS, Terraform, GIT, Grafana, Nginx, Docker, Docker-compose, Linux, shell/Bash, Python, MongoDB, InfluxDB, Postgres, Ansible, Github, GitLab (CI/CD), Jenkins, Rundeck, Kubernetes

Licenses & Certifications

Amazon Web Services, 2025

- AWS Certified Solutions Architect - Associate
Credential ID :- TVD7VRV1XJR4QYG3
- AWS Certified Solutions Architect - Professional
VALIDATION NUMBER:-1580ef437c8a431492e90b519d1dec19
