

Kudurupaka Yatheesh
(JR DevOps Engineer)

Email: kudurupakayatheesh836@gmail.com
Mobile: +91 9640421984

Professional Summary:

DevOps Engineer with over all 1+ years of hands-on experience in building, automating, and optimizing **AWS** cloud infrastructure, implementing **CI/CD** pipelines using industry- leading tools and technologies. Proficient in **Linux, Ansible, Jenkins, SonarQube, Git** and **GitHub**.

Highlights:

- ✓ Experience with **Version Control system** such as **GIT**.
- ✓ In **GIT**, creating a **Branch and Merging Multiple Branches** and shift files from one Branch to another Branch
- ✓ Knowledge on **shell scripting** for automating tasks for regular usage and system operations
- ✓ Hands on experience in automating **CI & CD** pipeline using **Jenkins** tools.
- ✓ Focused on Continuous integration, Continuous Delivery and release management.
- ✓ Integrated **SonarQube** with Jenkins for Continuous code Inspection.
- ✓ Worked on **Application servers** like **Tomcat** to Deploy code.
- ✓ Proficiency with Configuration Management tools & Build management tools such as **Ansible**,
- ✓ Experience in writing **playbooks**.
- ✓ Configuring the **Docker containers** and **Creating Docker file** for different environments
- ✓ Experience in delivering Container based Deployments using **Docker**
- ✓ Experience to configure and provision AWS services by using **AWS CLI** like **EC2, VPC, AMI, EBS, ELB, Auto scaling, S3, Route 53** in AWS.

Technical Skills:

- | | |
|---|-----------------------------------|
| ➤ Cloud | : Amazon Web Services (AWS) |
| ➤ Operating system | : Linux, windows |
| ➤ Containerization Tool | : Docker |
| ➤ Version Management Tools | : GIT |
| ➤ Configuration Management Tools | : Ansible, Terraform |
| ➤ CI/CD Tools | : Jenkins |
| ➤ Static Code Analysis Tool | : SonarQube |
| ➤ Repository Manager Tool | : Github, Gitlab |
| ➤ Monitoring Tools | : Grafana Datadog AWS Cloud Watch |
| ➤ Scripting | : Shell Scripting (BASH), YAML |

Educational Background:

- Bachelor's Degree: Kavitha memorially Degree College, Khammam (2018-2022)
- Intermediate: Madhu Jr. College (2016-2018)
- SSC: 2015

Professional Experience:

- VBRS IT Solutions Pvt Ltd (Hyderabad) – April 2024 - present

Work Experience:

Project

EMS | - (April 2024 to Present)

- Set up and managed Linux Servers on Amazon EC2 instances
- Proficient in utilizing a diverse range of Amazon Web Services (AWS) products, including **EC2, EBS, EKS, S3, Route 53, RDS, IAM, VPC**, and Load Balancer to optimize
- Responsible for creating **EBS** volumes for additional disk space in EC2 instances and managing them
- Worked on Linux and windows servers **patching activities**.
- Implemented Continuous Integration using Jenkins and **GIT**
- Implemented the setup for Master slave architecture to improve the Performance of **Jenkins**
- Worked with **Ansible playbooks** and maintained Ansible roles
- Led the planning and execution of server migration from RHEL 7 to 8 ensuring minimal downtime and compliance with organizational standards.
- Worked on chef upgradation and resolving the chef-client failures.
- Worked on branching, labelling and merging strategies in Git
- Experience with container-based deployments using Docker, working with **Docker images**, Docker hub and Docker registries
- Wrote shell scripts for several health checks, performance monitoring, and disk usage alerts. Automated alerts via email when resource usage exceeds.
- Created **confluence** pages for troubleshooting steps for any new issues.
